I will fix the dxf for d3650-5 with the right hole dimensions, but for the /-3 could you check the holes, all of them and resend it to me please.

Thanks.

Hi David,

This dimension is not critical dimension, just have clearance for floating nut plate for the screw, 0.223" diameter will be fine, therefore 0.223" is acceptable. For this minor different I recommend no change the drawing, but if become an issue for QC, I can update dxf, but Isam has to let me know that.

Roberto

Subject: D3650-5

On the dwg, the measurement that is highlighted is (0.213), but on the dxf it is 0.223. which one is good.

The parts are cut, is .223" acceptable.
